Previous Rejections

Unless specifically maintained infra, all previous rejections are withdrawn.

Anticipation Rejection

Claims 2, 4-7, 9, 10 and 12 were rejected under 35 USC 103(a) as being unpatentable over Yajima (USP 4,267,166) in view of Ning et al (US 2003/0049303).

This rejection is maintained and is now applicable to claims 4, 5, 7, 9, 10 and 12.

Applicant argues that claim 4 as amended is patentable over this combination of references because “Ning does not teach or suggest a zeolite-based material or carbon-based material as an odor absorbing agent”. (Remarks, page 5, paragraph 3). The examiner can find no factual basis for this assertion however, since Ning et al do in fact teach the use of “zeolite” specifically at the fifth line of paragraph [0056], thus providing a basis for maintaining this ground of rejection.

Action is Final

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
